

Line Them Up

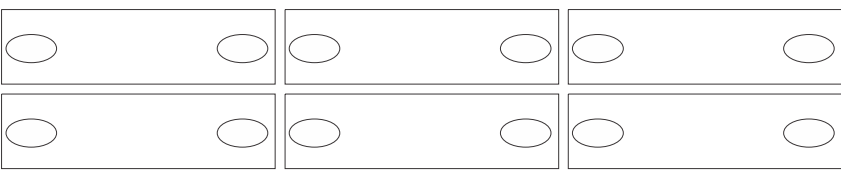

To line up the police commendation bars, we now have many configurations of holders available.

The holders are constructed from a polished strip of durable brass with recessed areas specifically designed to fit the commendation award bars. The alignment bars also have holes to accommodate the pinette needles on the award bars.

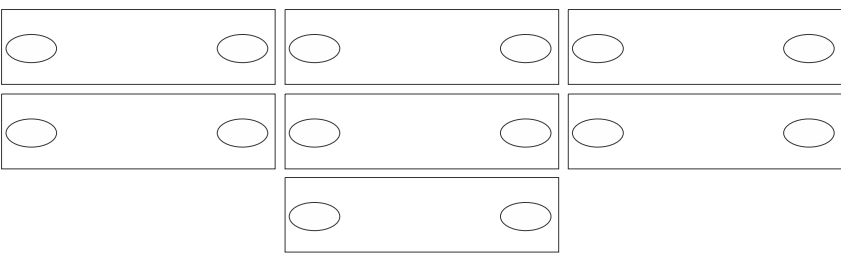

The commendation bars can easily be mounted in the holders in a semi-permanent way with either a drop of epoxy or a narrow strip of double-sided tape. Research shows that a drop or two of 2-part epoxy glue works best.
